

TC 160KEG

PRODUCT DATASHEET

TC 160KEG KEG COOLER

High-quality, domestically manufactured Keg cooler with digital temperature control. Designed for cooling David and KEG barrels. The KEG barrel can be tapped inside the machine. The exterior and interior of the machine are made of plastic-coated sheet metal. It has a reinforced bottom plate that does not deform when barrels are taken in or out. Equipped with LED lighting.

PRODUCT DETAILS

Dimensions

External size (mm)	600x585x820 (H)
Internal size (mm)	516x457x686 (H)
External size (mm)	142
Packing size (mm)	160
Net volume (l)	41
Gross volume (l)	44

Technical specifications

Aggregate	built-in
Climate type	N
Temperature range	+2...+13
Temperature control	Digital
Refrigerant	R290a
Current (A)	0,6
Rated voltage (V)	230
Input power (W)	100
Internal material/color	plastic-coated sheet steel / grey
External material/color	plastic-coated sheet steel / anthracite
Type of lighting	LED
Type of cooling	Dynamic

Capacity

20 l keg (pcs)	2
30 l keg (pcs)	1
50 l keg (pcs)	nem
Mixed keg (pcs)	nem

Accessories

Lock	no
Mobil	optional
